

FORESTRIALS Online Database

The best way to have your long term monitoring forest trials Known

Why to use it?

- **Visibility**

You upload information once and the data set is visible on many websites for free, you can also make it visible on your own website, You can put links toward your own site descriptions

- **Full control on your data**

You ask for an ID and a password, then you can upload, update and delete data online at anytime.

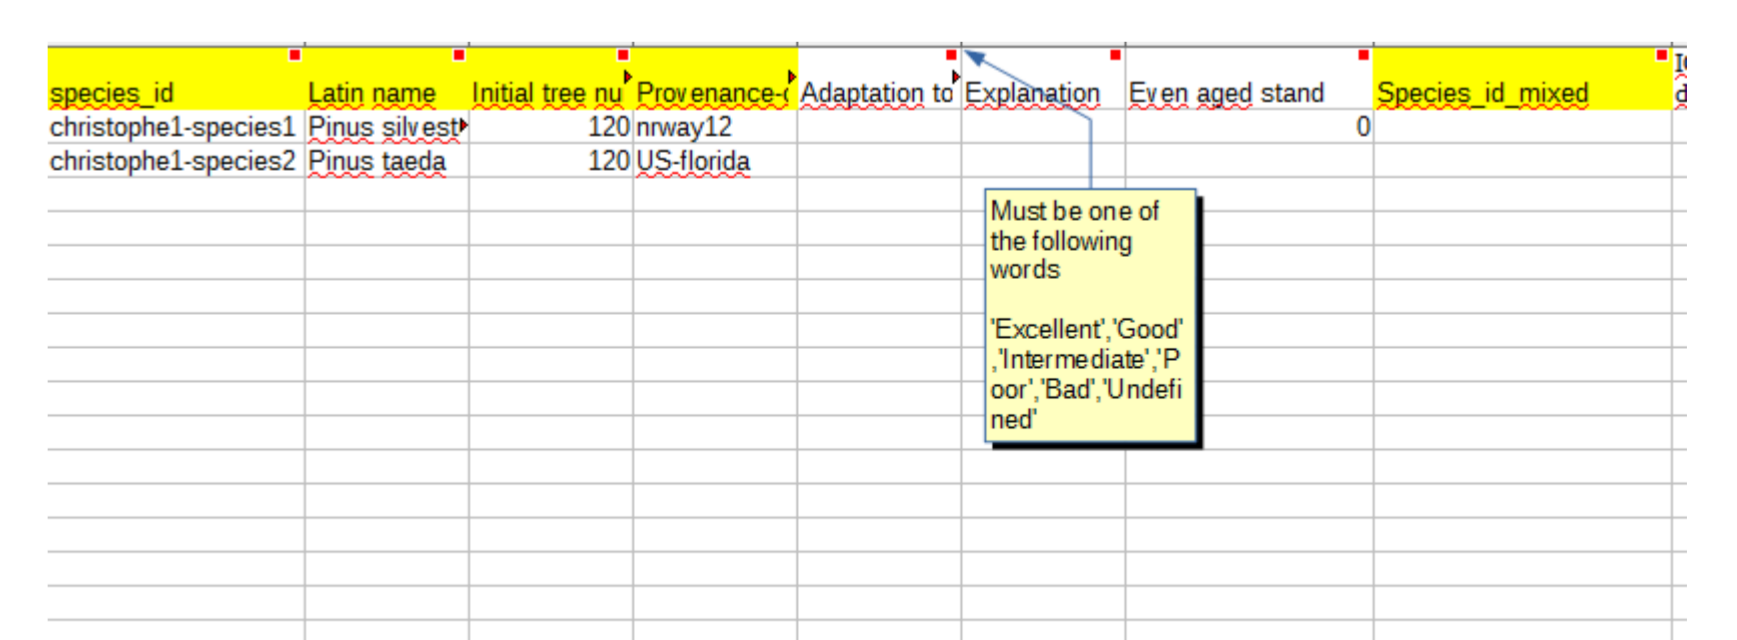

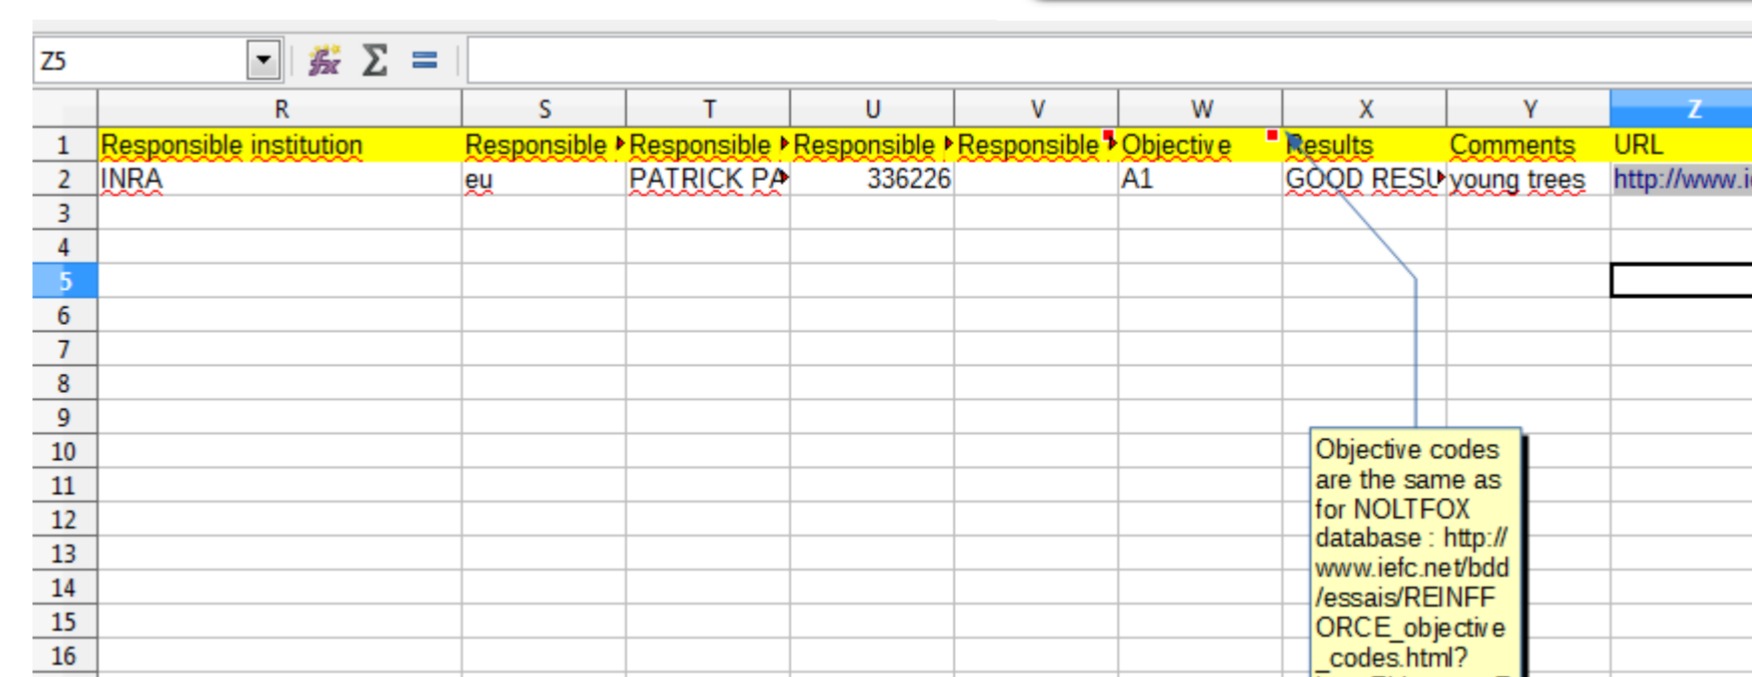

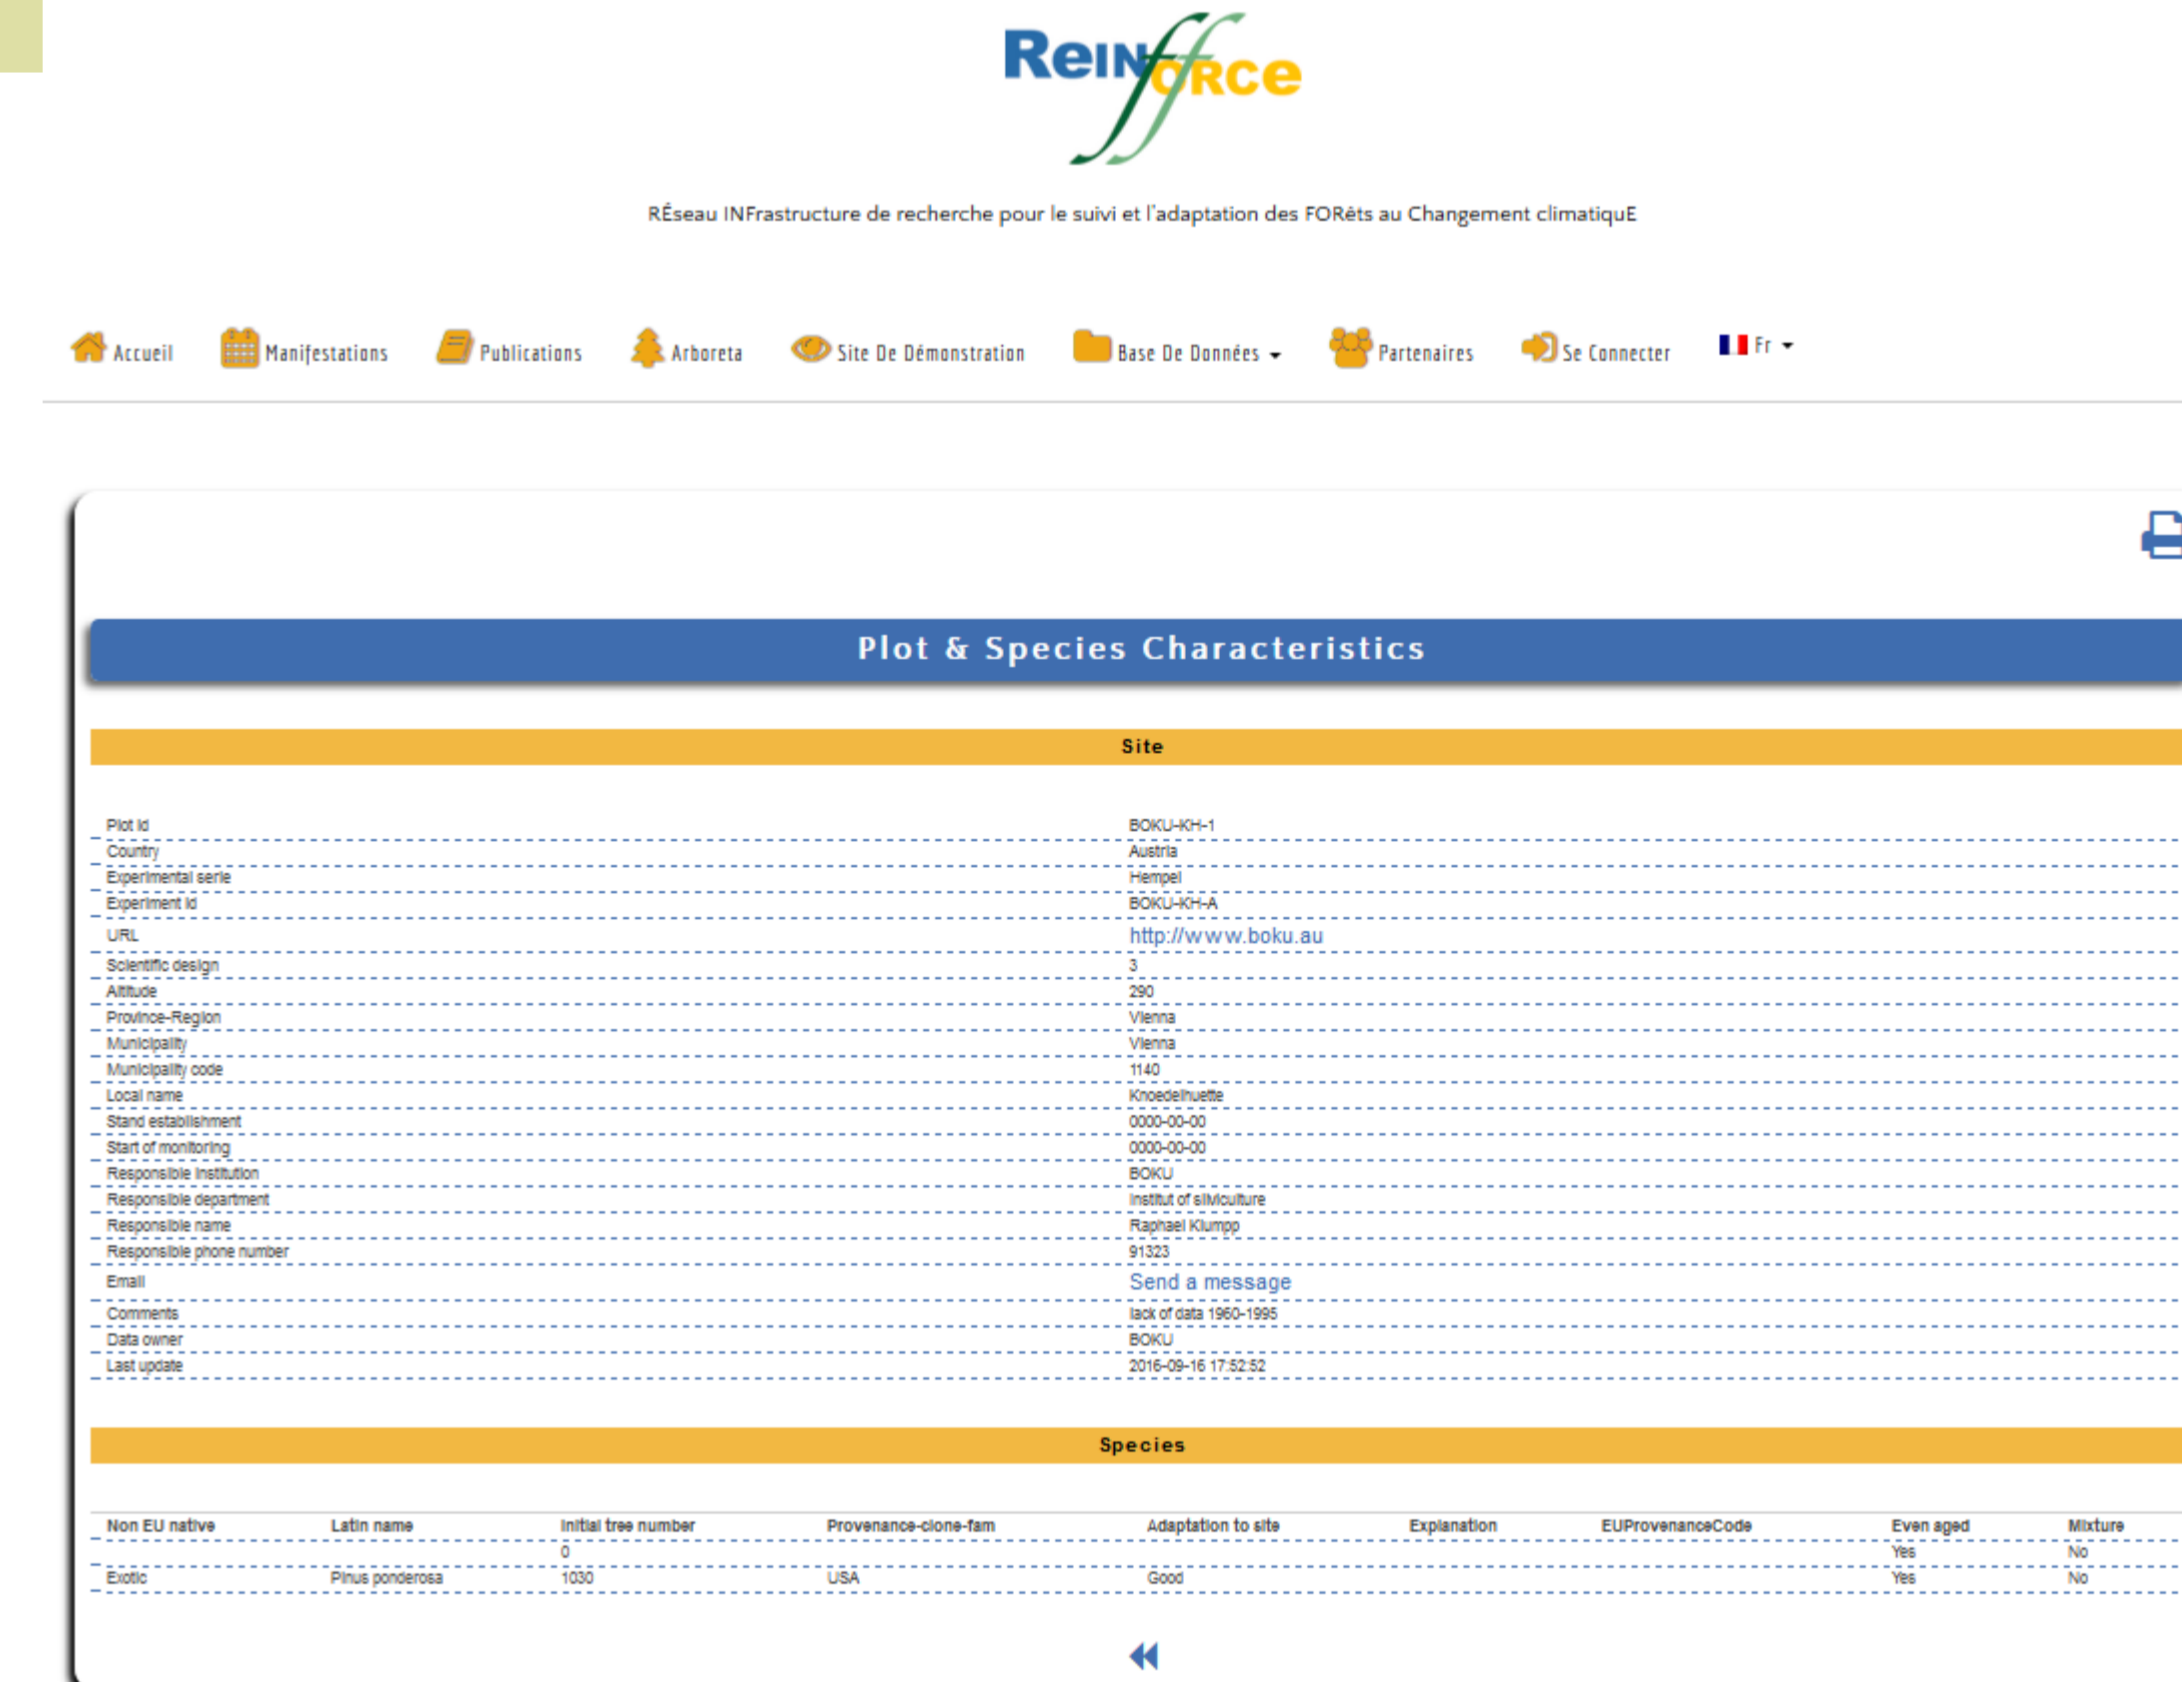

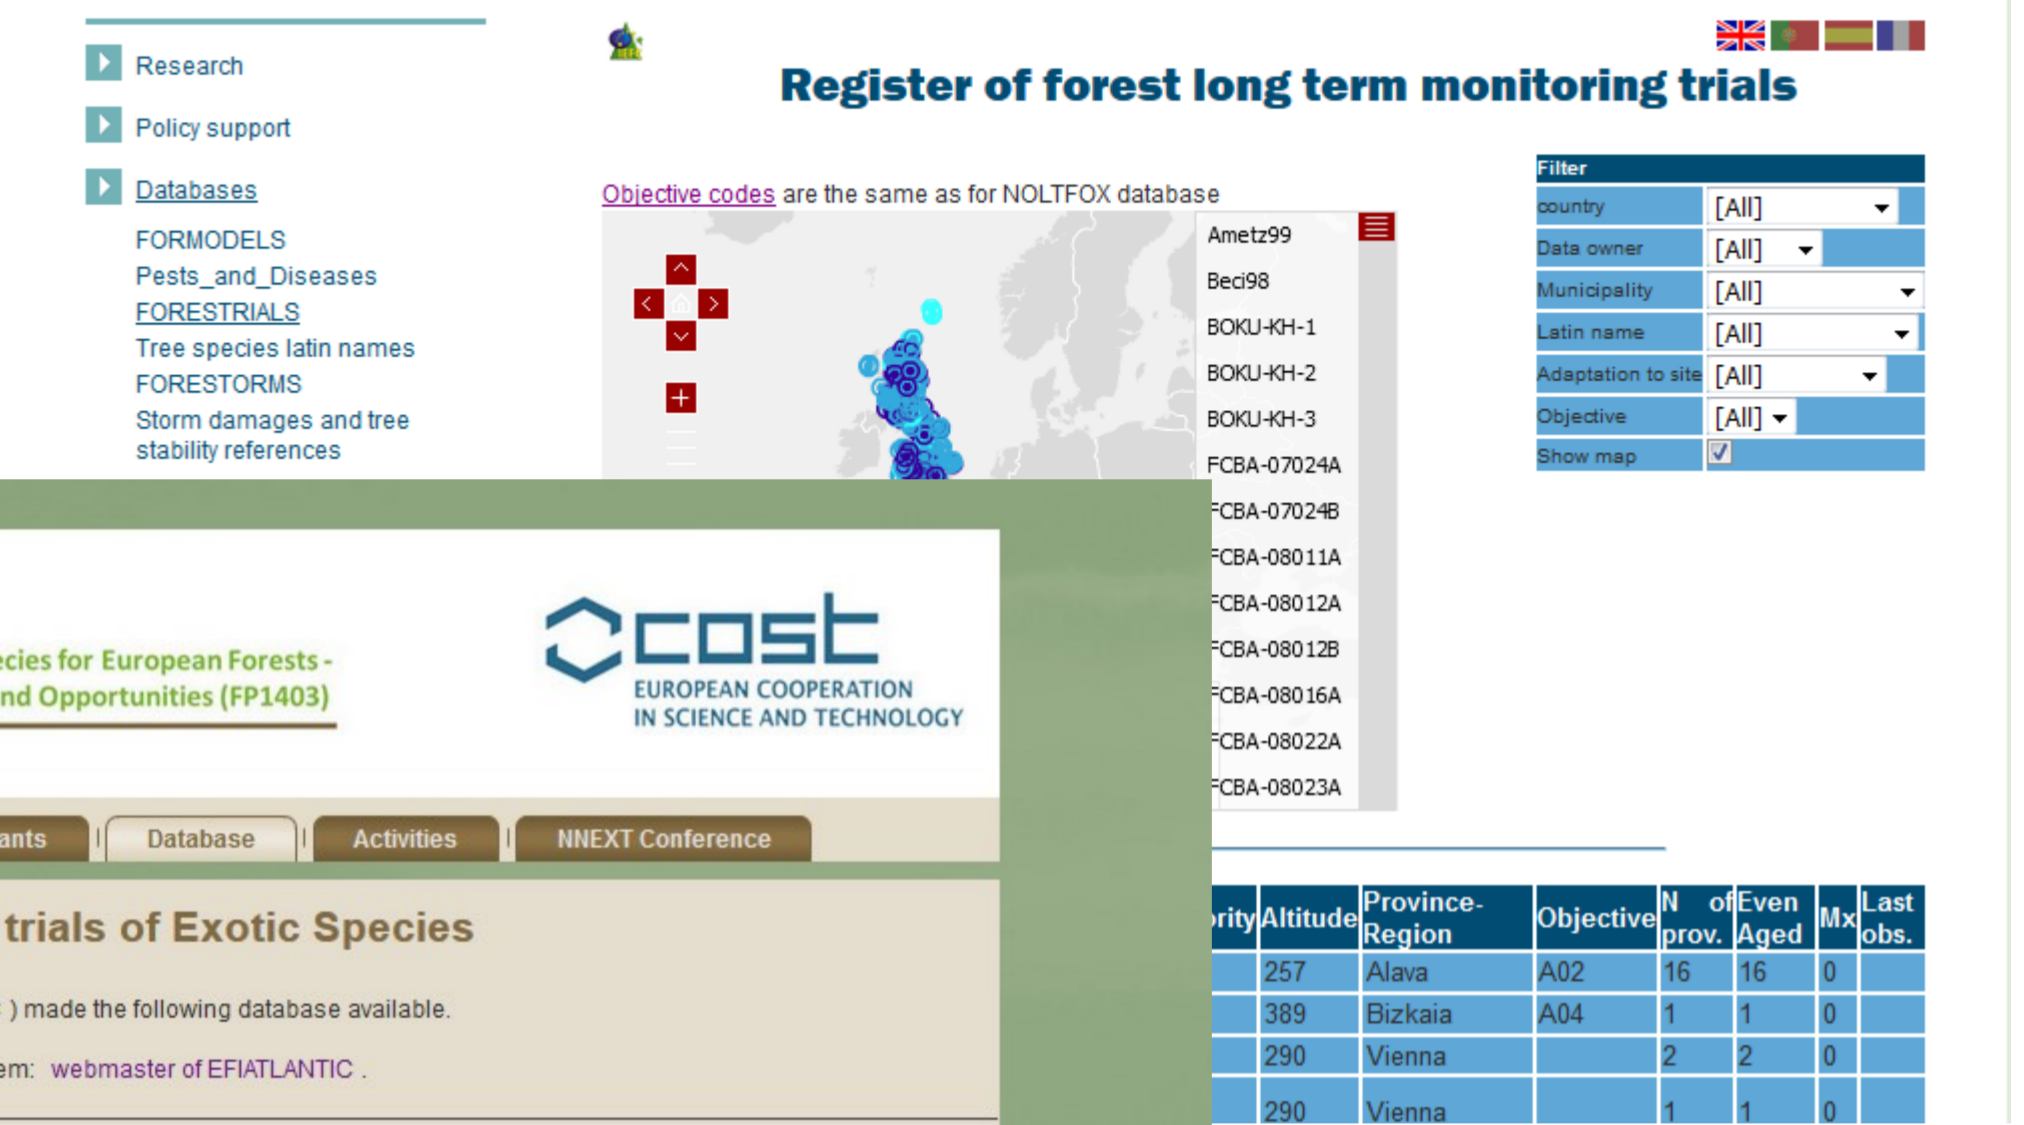

Your email is never available online but only through a form.

- **No cost**

There is no registration cost to use the system.

How to use it?

1. Click on  and ask for a password to the webmaster or directly email EFIATLANTIC/EFIPLANT team (efiatlantic.efi.int)
