NON-NATIVE TREE SPECIES for EUROPEAN FORESTS

VIENNA, AUSTRIA – 12-14 September 2018

Aim

This International Conference brings together researchers and stakeholders concerned with **Non-native tree species in European forests**.

Session topics include:

- **Introduction** ○ **Distribution** ○ **Provenances**
- **Reproduction** ○ **Management** ○ **Growth potential** ○ **Ecosystem services**
- **Biotic and abiotic threats** ○ **Market potential** ○ **Public perception** ○ **and more.**

The conference program is relevant for scientists from a large range of disciplines, as well as for governmental representatives, forest owners and practitioners and NGOs. Non-native tree species in a changing world bring **opportunities** and **risks**. It is therefore the exchange between disciplines, which facilitates wise decisions and foresighted management. – We cordially invite you to take part in this activity!

Local Organiser

Institute of Silviculture, University of Natural Resources and Life Sciences, Vienna

Peter-Jordan-Straße 82

1190 Vienna, Austria

Elisabeth PÖTZELBERGER and

Anna RAMEDER (administration)

phone: 0043-1-47654-91332 or -91325
